

MY IPOD NOMINATION!

The Kids, cops & computers program has helped me accomplish so much for example; this program has encouraged me to do better in school. Ever since I got my computer I have been getting A's and B's on my math tests because this program has given me an opportunity to achieve and I will achieve! This program has helped me with communication now I can talk to my family and friends on the computer. Plus I can type up my school projects and print them if needed.

This program allows you to talk to an ebuddy (a cop), which is awesome because this gives you an opportunity to get to know your ebuddy and change your perspective on cops.

This program is extraordinary and offers a scholar ship which is fantastic. This is a program that offers so much!

THANK YOU KIDS, COP & COMPUTERS!
